Elastic Webbing

<https://jontay.com/elasticwebbing.aspx>

Jontay offers both nylon elastic and poly-elastic webbing. Woven Nylon-Elastic Webbing is a high-quality elastic with about 50% stretch. Woven poly-elastic webbing is thicker and stronger than regular braided elastic, commonly used for suspenders and belts.

Polypropylene Webbing

<https://jontay.com/polypropylenewebbing.aspx>

Jontay carries heavy, regular, and light-weight herringbone weave, and gripper polypropylene webbing. Commonly found on bags and pet leashes, polypropylene webbing is lighter, less expensive, and easier to sew than nylon webbing.
